PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of professional experience independently delivering web projects from implementation through production deployment. Experienced in PHP, Laravel, JavaScript, Vue.js, OctoberCMS and proprietary CMS development, with hands-on responsibility for frontend, backend, database-driven features and hosting. Founder of DYNAMO DEV, providing custom web and business software solutions.

PROFESSIONAL EXPERIENCE

Full Stack Developer | Blue | June 2025 – Present

- Independently develop end-to-end web projects, covering responsive interfaces, backend functionality, content management and deployment.
- Build and customize dynamic websites and CMS solutions using OctoberCMS and Blue Engine, the company's proprietary CMS.
- Implement features with PHP, Laravel, JavaScript and Vue.js according to project requirements.
- Configure and deploy websites using cPanel and Hostinger; troubleshoot production and application issues.

Founder & Full Stack Developer | DYNAMO DEV | July 2026 – Present

- Own and operate an independent software development business focused on websites, business systems and custom web applications.
- Translate client requirements into technical solutions and manage development and deployment activities.
